

Peninsula Gun Club Facility Improvement Projects

Dear Fellow Members,

The Peninsula Gun Club is pursuing construction of two projects that will significantly enhance our facilities and operations, and we are committed to raising the necessary funds to ensure these improvements move forward successfully.

Key Projects

1. New 40x100 Storage Building
 - Estimated cost: \$110,000
 - Constructed in partnership with Cleary Building Corp.
 - Will provide secure, covered storage for equipment, supplies, and materials.
 - Benefits:
 - Enable bulk purchasing of supplies to reduce costs
 - Protect equipment, minimizing maintenance and repair expenses
 - Streamline daily operations
 - Allow us to host larger events throughout the year

2. Outdoor Pistol Range Shelter Expansion
 - Estimated cost: \$20,000
 - Builds on last year's successful pistol range block wall improvements
 - Enhances shooter comfort, safety, and accessibility

Total Estimated Project Costs: \$130,000

Funding Details

We are pursuing a DNR shooting range grant to cover a percentage of the project but actively focused on raising the necessary funds from members to fully cover and move these projects forward. This is because project costs must be paid upfront before any potential DNR reimbursement can be processed.

This approach allows us to proceed confidently and ensure timely implementation while maximizing the impact of every dollar raised. If the DNR grant is approved and reimburses a portion of the expenses, any remaining funds will be thoughtfully reallocated to additional projects based on member interest and feedback.

Why Support These Improvements?

At Peninsula Gun Club, we are committed to continuous improvement to provide the best possible experience for our members and visitors. Considering a contribution to these projects will help us build a stronger, more sustainable club for generations to come.
